SADDLES

Innovation
Meets Tradition

Best Comfort and Optimum Horse-Friendliness

DRESSAGE

PASSIER® EVO-D

The monoflap saddle for freedom of movement. Especially comfortable due to the Queen Special Feature, the moved-back points of the cantle and the super-soft seat. Plenty of space in the saddle and the rider can exert even more influence!

Sizes 16" to 19"
PS Saddle Tree
Art. no. 504

PASSIER® Compact Comfort

The Compact Comfort combines an especially short contact surface on the horse with a large and comfortable seat, which is extra-comfy and super soft due to the Queen Special Feature.

Sizes 1 to 4
PS Saddle Tree
Art. no. 534

NEW
Now also
available
in size 4

PASSIER® Freemove Dynamic

The Freemove Dynamic with its flat seat and flat thigh supports provides optimum freedom of movement for every rider. The sloping, short flocking and the straight girth straps relieve the rear part of the horse's thoracic spine, enabling the back muscle to swing freely.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 532

PASSIER® Hubertus Schmidt II

The elegant saddle with light-colored stitching was developed in cooperation with professional dressage rider Hubertus Schmidt. With thick thigh supports and a soft and deep seat for extremely good riding comfort.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 543

PASSIER® Optimum II

For an exquisite riding sensation: with advantageous cut for optimum riding position, narrow twist, pre-formed knee inserts, thicker thigh supports and soft leather doubling of the large and small saddle flaps for optimum hold.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 552

PASSIER® Optimum Mono

The monoflap saddle ensures that the rider sits particularly close to the horse for a very special riding experience and even more influence. The thigh supports on top of the saddle flaps are available in two different versions.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 557

PASSIER® Sirius

The saddle with fit-System® guarantees that the horse's shoulder is able to rotate completely freely. Horses ridden in the Sirius saddle are more relaxed and content, and riders report a particularly calm and harmonious sitting sensation.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 565

PASSIER® GG Extra powered by Ingrid Klimke

The GG Extra was developed in cooperation with master rider and Passier partner Ingrid Klimke.

The modern look turns this popular model into a true highlight. The comfortable deep seat and the soft knee inserts with the convenient quilting enable direct contact with the horse. The design inset with alternative stirrup strap lead makes this saddle a true eye-catcher! Team Klimke – also in the dressage arena powered by Passier!

Sizes 16" to 19"
PS Saddle Tree
Art. no. 531

PASSIER® Optimum

The saddle is designed to ensure the perfect riding position for the rider. The narrow twist allows for closer contact with the horse and the large contact area results in an optimum fit to the horse's back.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 550

NEW

PASSIER® Smart D

The elegant dressage saddle for a comfortable seating sensation. The deep seat and the variable Velcro supports make it even easier to find the optimum riding position. Visual highlights are the shiny patent leather rear seam and the shiny patent leather stirrup strap loop. For absolute horse-friendliness the saddle is equipped with the popular Freedom Panels.

Sizes 16" to 18"
Synthetic Saddle Tree
Art. no. 528

PASSIER® Grand Prix Special

The monoflap saddle has an extra-deep seat with special deeper seat lining for an incredibly comfortable riding sensation. The flaps come with soft Deluxe doubling. The saddle is available with short or long knee support, just as needed.

Sizes 16" bis 18"
(Size 16" only available with short thigh blocks)
Synthetic Saddle Tree
Art. no. 620

PASSIER® Corona II

The Corona II with its thigh supports under the pre-formed knee inserts provides extra-comfortable hold and is completely slip-proof due to the doubling on the small and large saddle flaps.

Sizes 16" to 18"
Synthetic Saddle Tree
Art. no. 521

PASSIER® abs

The abs provides a comfortable riding sensation and a perfect fit – even on horses for which it is otherwise very difficult to find the right saddle. A special point billet strap arrangement always keeps the saddle in place.

Sizes 16" to 18"
Synthetic Saddle Tree
Art. no. 640

PASSIERBLU® Style

The perfect saddle for riders seeking the extraordinary. With exceptional design elements, a super-comfortable, deep seat, thick thigh supports and doubling on the small saddle flaps for a secure and relaxed time in the saddle.

Sizes 16" to 18"
Synthetic Saddle Tree
Art. no. 660

PASSIER® Young Star II

The advantageous saddle with adjustable thigh supports with Velcro, soft seat lining and a deep seat. The patent leather trims at front and back and the patent leather stirrup strap loop are very elegant.

Sizes 15,5" and 16"
Synthetic Saddle Tree
Art. no. 526

JUMPING

Top-Quality and Optimum Freedom of Movement

NEW

PASSIER® Connection

The modern jumping saddle for a comfortable seating sensation with the center of gravity further forward. Thanks to the soft Deluxe Doubling of the saddle saddle flaps and the narrow twist of the flat PS Saddle Tree, the saddle offers optimum seating comfort and direct contact with the horse. The slightly triangular knee blocks and the small thigh blocks provide support when jumping. Freedom at the withers, shoulder freedom, the flexible tip of the saddle panel and the PS Saddle Tree, which is flexible in the longitudinal axis ensure a first-class fit on the horse.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 501

PASSIER® EVO-S

The EVO-S provides an exceptionally soft sitting sensation due to the soft inserts on the skirt and the seat lining that runs smoothly into the saddle flap. The horse enjoys optimum freedom for the withers due to the wider gullet plate. In addition the saddle creates excellent freedom for shoulder, spine and movement.

Sizes 16" to 19"
PS Saddle Tree
Art. no. 502

Cut + 2 cm (0.8")

PASSIER® Arktur

The Arktur convinces due to its extra-soft, semi-deep seat. The soft knee inserts ensure optimum contact with the horse. The saddle flaps are softly doubled and thus especially slip-proof. Also available with flat seat and wider cut with an additional 2 cm (0.8").

Sizes 16" to 19"
PS Saddle Tree
Art. no. 518

Zeppelin's Don de La Mare

multifunction Connection Jumping Saddle and
the Dynamic Leather Saddle Girth

Cut of Jumping and Cross-Country Saddles

PASSIER® Marcus Ehning II

The Marcus Ehning II was developed in cooperation with professional jumping rider Marcus Ehning. The wide, flat PS Saddle Tree ensures optimum contact with the horse. The softly doubled skirts, the large knee blocks and the small calf blocks provide excellent hold.

Sizes 16" to 19"

PS Saddle Tree

Art. no. 511

Cut + 2 cm (0.8")

PASSIER® Performance

The Performance features a semi-deep seat, a narrow twist, large knee blocks and small calf blocks and Natural Grip leather with excellent grip for a secure riding sensation – and it has a stylish look! Also available with a cut of an additional 2 cm (0.8").

Sizes 16" to 18"

Synthetic Saddle Tree

Art. no. 513

PASSIERBLU® Motion

The PASSIERBLU Motion has a soft, flat seat, large knee and small calf blocks and skirts, which are doubled with Selloil leather. Decorative stitching and patent leather trim complete the stylish look.

Sizes 16" to 18"

Synthetic Saddle Tree

Art. no. 661

PASSIER® Marcus Ehning

The Marcus Ehning was also developed in close cooperation with the well-known professional rider. The soft saddle seat ensures an excellent riding sensation. The thicker knee inserts enhance contact with the horse.

Sizes 16" to 18"

Synthetic Saddle Tree

Art. no. 510

PASSIER® Avior

The Avior convinces due to its semi-deep seat and its comfortable seating sensation. The pre-formed knee inserts and thick knee and calf blocks give the rider very good security, the decorative stitching completes the classy look.

Sizes 16" to 18"

Synthetic Saddle Tree

Art. no. 512

PASSIERBLU® Flow

The PASSIERBLU Flow has stylish decorative stitching and a patent leather trim at the back of the small saddle flap. Additional features include a soft, non-slip, flat seat, large knee blocks with Velcro and small calf blocks.

Sizes 15,5" and 16"

Synthetic Saddle Tree

Art. no. 663

CROSS-COUNTRY AND ALL-PURPOSE

Cross-Country and All-Purpose Saddles – approved by Pros

NEW

PASSIER® Allround

This versatile saddle always looks perfect in every discipline: whether for dressage, show jumping or a leisurely ride across fields and meadows. It offers sufficient freedom of movement and, with its variable Velcro supports, always provides support where it is needed. The modern cut, soft knee inserts and comfortable fit make this saddle a popular all-rounder. One for all – naturally with the Freedom Panels for the best possible support on the horse's back and absolute horse-friendliness.

Sizes 16" to 19"

PS Saddle Tree

Art. no. 093

PASSIER® Paxton

This all-purpose saddle with emphasis on dressage is an ideal saddle for beginners – and with its pleasant seat depth and versatile cut it is perfect for all uses. The knee rolls provide good security and guarantee freedom of movement.

Sizes 16" to 18"

Synthetic Saddle Tree

Art. no. 035

PASSIER® Excellence powered by Ingrid Klimke

The perfect combination of modern look, ultimate comfort and uncompromising horse-friendliness. The narrow twist enables optimum contact with the horse and the soft knee inserts and the calf blocks on top of the flap ensure perfect hold.

Sizes 16" to 19"

PS Saddle Tree

Art. no. 506

Highest Quality, Best Riding Sensation

Soft, Softer, Passier Leather

Leather is a premium natural product. At Passier the raw materials are subjected to rigid quality control. That is why Passier products are made exclusively from the best European cowhide. After passing the strict quality control the optimum sections are chosen from each hide, in order to ensure the highest quality for the products.

Small visible scars, insect bites or neck folds underline the natural quality and sustainability of the chosen quality leather. The quality and longevity is not diminished by the natural leather features. Rather, these are visual indications of the natural and sustainable farming methods under which the animal has been raised and kept.

With proper care Passier products have a very long lifespan and will retain their natural and classy appearance for many years or even decades.

Natural Grip Leather (NGL)

Natural Grip leather is a very soft saddle flap leather with excellent grip. It is tanned with a selection of natural waxes and precious vegetable and animal oils and is used in the construction of all Passier saddles with PS Saddle Trees without doubling. Natural Grip leather is available in the colors Black and Havana. At an extra charge it is also available for saddles with Synthetic Saddle Tree, Art. no. 087.

Cowhide

This high-quality saddle flap leather is used in all Passier saddles with Synthetic Saddle Tree. It is a very hard-wearing and durable leather which has been in use at Passier for more than ten years in constant high quality. Cowhide is available in the colors Black, Havana and Teak.

Selloil Leather

Selloil leather combines an extraordinary softness with a secure grip. It is used on seats, knee inserts and panels. It is exceptionally slip-proof, offering the rider comfort and security in the saddle while also keeping the saddle securely in place. Selloil Leather is available in Black, Havana and Teak.

Deluxe Doubling

The extra-soft Deluxe Doubling ensures an exceptionally soft riding sensation. The secret: between saddle flap and soft Selloil outer leather a soft foam rubber insert of 2 mm has been added. The result is unique: maximum grip and at the same time ultimate comfort!

Art. no. 088

Seam Colors

	Red
	Green
	Black
	Rosé
	Creme
	White
	Grey
	Blue
	Havana

Elegant, Natural and Timeless

Leather Colors

Passier saddles are available in the colors Black, Havana and Teak. Seams are available in a variety of colors, saddle applications in many additional colors, see pp. 28/29.

Take note: genuine leather is a natural product. This means that each hide will absorb the dye differently. This results in differing nuances in the nominal color. These nuances give Passier saddles, bridles and accessories their unique, natural and elegant look.

For all colors best possible color fastness and color stability are of utmost importance – and given the correct care the stability of the colors can be guaranteed.

Two Saddle Trees with Countless Amazing Features

Passier Saddle Trees – Especially Horse-Friendly

PS Saddle Tree

Each PS Saddle Tree is constructed by hand by Passier master saddlers in Langenhagen, Germany. More than 1,200 steps are necessary for the production. The main materials are wood and leather. Saddle models with PS Saddle Tree are available in seven different sizes: from 16" to 19".

Regular Gullet Plate
The width of the gullet plate can easily be adjusted – several times, if necessary!

Wider Gullet Plate
The wider gullet plate is used for horses with high and bony withers and offers optimized wither clearance in the longitudinal bend. Available for saddles with PS Saddle Tree.

Art. no. 080

frt-System®
The frt-System® with anatomically-formed gullet plate bars lets the horse's shoulder move freely. Available for saddles with PS Saddle Tree.

Art. no. 051

Queen Special Feature

The cut out at the front of the saddle tree, right in the pubic area under the soft seat reduces pressure and makes the saddle extra-comfy and super soft. Available for all saddles with PS Saddle Tree.

Art. no. 081

Cantle Widened by 15°

This cantle offers the rider more room and freedom of movement with the same seat size. This allows you to go a full size smaller for horses with short backs! Available for all Dressage Saddles with PS Saddle Tree.

Art. no. 054

Passier Allround All-Purpose Saddle

Synthetic Saddle Tree

The Synthetic Saddle Tree is made of an elastomere, which cannot break under normal conditions and can therefore respond to the highest demands. Passier saddles with Synthetic Saddle Tree are available in five sizes from 16" to 18".

The wide construction of the head of the saddle tree offers great freedom on the sides for the withers.

The narrow twist of the Synthetic Saddle Tree ensures very close contact to the horse.

The edges on the sides are very smooth, supporting the impression of a narrow twist.

The pointed ends of the cantle are situated close to the back. This creates plenty of room in the seat allowing riders to position perfectly.

Quality Made by Master Craftsmen in Germany

Passier Saddles – High-Class Seating Sensations

Softer Seat Lining

Invisible to the eye, special attention is paid to the "inner values": the current Passier seat lining is based on state-of-the-art technology – for a wonderfully soft, unforgettable riding sensation: the unique Passier feeling!

The seat lining is sanded into shape by the master saddler. Individual and wonderfully soft!

Outer Welt Seam

All seams are placed in such a way that they do not come into contact with the rider. No pinching and nipping. Guaranteed!

Knee Inserts 15 mm (5/8") and Very Soft Thigh Supports

The knee inserts are especially comfortable, because they are padded with super soft 15 mm (5/8") material like in this case in the GG Extra Dressage Saddle powered by Ingrid Klimke. The thigh supports are also constructed from very soft materials, which closely adapt to the shape of the rider's knee.

Which Saddle is This?

If you have tried out or seen a Passier saddle that you would like for yourself, simply check the embossed saddle number. Each saddle, even from a past collection, can be duplicated based on this number.

A wonderful, soft Passier seat with non-slip seat leather that is being drawn out over the saddle tree by hand by our Master Craftsmen in Langenhagen

Passier Saddle Panels – Unbelievably Convenient

Synthetic Wool

Passier panels are all filled with synthetic wool, which has unique advantages: it does not absorb liquid and maintains its elasticity and softness when in use, there is no formation of clumps during flocking, and it has high re-set properties. Passier saddle panels, therefore, are very elastic and very horse-friendly.

10 mm (3/8") Latex Insert

This practical insert ensures extremely soft, smooth contact between the saddle and the horse's back. Furthermore it helps to evenly distribute the rider's weight on the horse's back. The horse-friendly insert is a standard feature of all Passier saddles.

Flat, Medium, High Gusseted Panels

The Gusseted Panels at the back enlarge the contact area of the saddle panels and improve the fit of the saddle. Later adjustments can be performed easily. Compared to Medium Gusseted Panels, the height of Flat Gusseted Panels is reduced by 10 mm (3/8"), while the height of High Gusseted Panels is increased by 10 mm (3/8").

"The Lifter"

The perfect saddle panels for horses with high withers and lowered back (with the rump sloping into the back), which require additional height in the rear area of the panel. "The Lifter" Panels with their short, round form at the rear come off the horse's back quickly and therefore exert no pressure.

Art. no. 083

Front Gussets

Front Gussets increase the volume of the padding in the front of the saddle. The use of Front Gussets thus is ideal for horses with hollow sides, which can be evened out with the additional volume of the Front Gussets.

Art. no. 043

Freedom Panels

The Freedom Panels, which were developed by Passier are a standard feature of all Passier saddles. They offer more room on the right and left of the horse's withers while the front third of the channel is especially wide, thus creating more freedom of movement for the horse.

Many Possibilities, the Perfect Solution for Every Type of Saddle

Passier Strap Arrangements – for the Optimum Fit of the Saddle

**2 x 70 cm (28") Billet Straps,
incl. Point Billet Strap**

**Point Billet Strap,
V-Girth Arrangement at Rear**

**Straight Point Billet Strap,
Strap on Seat Bottom**

W-Girth Arrangement

Passier employs a variety of different strap arrangements. The general rule: each strap arrangement is available for every saddle. The attachment of additional nail billet girthing is possible anytime and at no additional cost. The addition of a third strap on dressage saddles and the attachment of an additional point billet strap on jumping saddles is available at cost.

Straight Straps

3 Short Straps

The Perfect Supports, Blocks & Rolls for Every Use!

Passier Supports, Blocks & Rolls – secure & stable

All passier supports, blocks & rolls are also available with Velcro fastening! Art. no. 055

Thigh supports, knee and calf blocks and knee rolls provide security and stability in the saddle and help riders to hold themselves securely. Passier offers an exceptionally wide variety, differing from saddle model to saddle model.

Customized versions are available on request and at extra cost. On request all saddle models can also be outfitted with Velcro supports, blocks & rolls.

Estero with the
Highscore Double Bridle

Two Exclusive Highlights

The Round Passier Bridles

PASSIER® Harmony Snaffle Bridle

The new round Harmony Snaffle Bridle combines exclusivity and timeless elegance. The head piece is anatomically-formed and softly padded, reducing the pressure on the horse's sensitive poll. The anatomically-shaped Caveson Special is softly lined and with its elegant trim turns the snaffle bridle into a true eyecatcher. The waved browband with extra-large Premium Crystals in Clear Crystal completes this dream of a snaffle bridle.

PASSIER® Starlight Snaffle Bridle

A brilliant masterpiece with anatomically-formed and softly padded head piece. The softly lined patent leather noseband leaves room for cheekbone and optic nerve of the horse. With waved browband with Premium Crystals in the color Clear Crystal.

Sizes Pony size, cob size, full size

Color ■ Black

Fittings Stainless steel

Art. no. 812 incl. reins Art. no. 923

PASSIER® Fantastic Snaffle Bridle

The Fantastic Snaffle Bridle is absolutely horse-friendly. The anatomically-formed head piece is softly lined and well padded around the sensitive ear cartilage of the horse. Furthermore the fantastic-elastic joint on top of the poll leaves plenty of room for the horse's cervical vertebra. The elastic joint makes riding in contact so much more comfortable for the horse and tongue problems can be avoided, too. The anatomically-formed noseband leaves room for cheekbone and facial nerve of the horse. The waved browband with big sparkling Premium Crystals in the color Emerald Green completes the brilliant look.

Sizes Cob size, full size

Wonderfully Horse-Friendly
**Snaffle Bridles
with Special
Details**

PASSIER® Favorite Snaffle Bridle powered by Ingrid Klimke

The elegant Favorite Snaffle Bridle was developed in close cooperation with our partner Ingrid Klimke. The soft head piece of the snaffle bridle is anatomically-shaped and has a softly padded ear recess. Due to an additional recess on the cervical vertebra of the horse the head piece reduces pressure on the sensitive poll in an optimal way. The anatomically-formed Caveson Special with softly padded flash strap loop offers maximum comfort. The waved browband with extra-large, sparkling Premium Crystals in the colors Clear Crystal with stainless steel fittings or Smoke Topaz with brass fittings completes the super-elegant look of the snaffle bridle.

ACCESSORIES

Passier Breastplates

Innovations
in Top Quality

Functionality, fit and soft materials – Passier breastplates and the Passier martingale are especially horse-friendly accessories.

Colors
■ Black
■ Havana

Boundless Breastplate powered by Julia Krajewski

The softly lined and anatomically-formed breastplate was developed in cooperation with Eventing Olympic Champion Julia Krajewski. The breastplate combines ultimate comfort and freedom of movement in canter and jumping phases. Martingale attachment and jumping strap are removable.

Size One size fits all
Fittings Black with stainless steel, Havana with stainless steel or brass
Art. no. 681

PASSIER® Martingale

The Martingale is highly convenient and variable. The martingale attachment can be removed and re-attached easily by a snap hook. The flash strap also comes with a snap hook for easy attachment to, or removal from, the saddle girth. A small leather stopper ensures the neck ring remains in position.

The Premium Crystals can be chosen from six different colors:
Clear Crystal, Colorado Topaz, Silver Night, Rosé,
Siam Red and Emerald Green.

Art. no. 059

Stirrup Leathers

Passier stirrup leathers are cut from pre-stretched European cowhide and they are meticulously hand-sewn with two needles on the flesh side of the leather and have an especially long life.

Lengths 130 cm (51”), 140 cm (55”), 150 cm (59”), 160 cm (63”), 170 cm (67”) **Widths** 2.5 cm (1”) and 2.9 cm (1 1/8”) **Color** ■ Black

Art. no. 055 (130 cm/51”), 056 (140 cm/55”), 057 (150 cm/59”), 058 (160 cm/63”), 059 (170 cm/67”) **Art. no. 059**

PASSIER® Trapezius Relief Pad (TRP)

The TRP was developed in co-operation with dressage trainer Eberhard Weiß. It distinguishes itself from conventional pads by means of the two special recesses in the sensitive rearward part of the trapezius muscle. These oval recesses provide demonstrable pressure relief: the horse can breathe more freely.

Furthermore, the pad encourages better back activity and relaxation and supports muscle development and can also be used prophylactically against over-sensitive reactions to the saddle.

Size One size fits all

Colors ■ Black □ White

Art. no. 777

Art. no. 452 (replacement shell)

The Trapezius Relief Pad (TRP) is made from comfortable felt, the shell from easy to clean cotton.

Interior

Best Quality Between Horse and Saddle!

Horse-friendly Passier Saddle Pads

PASSIER® Lambskin Pad

This anatomically-shaped, hard-wearing pad made of vegetable-tanned lambskin has highly therapeutic benefits and offers many advantages: It is shock absorbing and effectively prevents formation of pressure points therefore making it perfect for horses with sensitive backs. The pad also promotes circulation and alleviation of tension and is also beneficial for horses prone to allergies.

The underside of the pad consists of lambskin with 25 mm (1/10") deep pile. The outer side is made of cotton.

Dealer Special**

From an order quantity of 250 pieces the Saddle Cover and the Stirrup Bag can be designed individually for an extra-attractive look!

PASSIER® Care Products

Every quality product requires particularly good care in order to preserve its high quality properties for as long as possible. For the correct care of Passier saddles, bridles and accessories, it is therefore important to use Passier Saddle Soap, Passier Lederbalsam and Passier Bridle Cleaner exclusively. This is the only way of guaranteeing correct care of the exclusive Passier products.

All Care Products are especially sustainable due to their packaging!
